

JERRY O'LEARY AND ASSOCIATES MUST OPEN THEIR BOOKS

American Independence Conference Found to Come Under Federal Statute Requiring Publicity of Campaign Contributions.

(Special Dispatch to Evening Herald)

New York, Oct. 25.—The exposure of the secret political relations of candidate Hughes and his campaign managers with the so-called American Independence conference, has brought Jeremiah A. O'Leary and his associates face to face with the necessity of "opening their books" under the federal statute requiring publicity of campaign contributions.

The official records of the secret political organization plainly show

that it is within the provisions of the federal statute and its promoters have been summoned to New York City for a hasty conference with R. McDonald and others who, before the Democratic exposition, were quietly arranging for a meeting of the boys in Minnesota to be held tomorrow night. McDonald left Chicago yesterday afternoon and is due here today. This sudden and abrupt change in the plans of "The American Independence Conference" may lead to the entire abandonment of the proposed Milwaukee meeting, as Jeremiah O'Leary is still in town.

Under Chapter 192, United States statute at large, with amendments providing for publicity of contributions, the last day upon which the O'Leary organization may comply with its provisions is Saturday, Oct. 28. This law is explicit in its definition of the character of political contribution to which it is applicable.

Section 1 defines the term political organization to include "the national committees of all political parties and all committees, associations or organizations which shall, in two or more states, influence the result of, or attempt to influence the result of an election at which representatives in Congress are to be elected."

In this connection attention is directed to the following extract from the official and confidential report of the committee on plane:

There are two immediate objects to receive the support, both active and financial, of the members of this organization. The first is the work in the presidential campaign. The second is in the campaign that must be pushed without delay to bring about the election of real American congressmen.

Sometimes you overdo your body with rich foods. Your body may be an active one, and thus you may care for all you eat. But a few days of inactivity show your body what it needs.

You awake in the morning tired. Your body feels heavy, you know you are not up to the mark. Your body is not strong for the overhead. Part of it remains. It generates heat. It generates gas that influences the delicate functions which fail to pour out the energy that you need to meet the life-giving elements. You know something is wrong.

Your body gets weak, and soon exhaustion is offered the same service.

Then in time, the inattention would not become serious, but the inattention becomes the malady, then built on the weakened body. It's simple to say, but it's true. Every day, every hour, every minute, every second, the inattention grows, and becomes the system—this is what you need.

PROMINENT men are continually engaged in the work of the inattention throughout the last century to every man in those conditions, and they have found that there is no better form of government than a government for regular administration.

SUGAR BEET FACTORY NOW SEEMS ASSURED AT OR NEAR CRUCES

Farmers Have Signed Up for 5,000 Acres and Project Likely Will be Put Through; Tests Show Up Remarkably Well.

Las Cruces, N. M., Oct. 25.—A beet sugar factory, representing an investment of at least \$1,000,000, located at or near Las Cruces, is now assured for the season of 1917, according to J. W. Meddins, one of the executive officers of the Holly Sugar company of Denver and Swink, Colo. The people of this section are jubilant over the announcement, and those who have spent the past few months in promoting the signing of acreage for seeds next year feel more than prepaid for their efforts.

The Holly Sugar company will open an agricultural department here on November 15, it has been decided. This probably will be under the direction of Phil B. Erickson, the expert who has had in charge the experiment that has been run this season, and to whom much credit belongs for the success of the experiment.

This department, like all district departments of the company, will be under the general direction of J. E. Gauger, chief agriculturist of the corporation. This office is of the highest importance to the farmer, for it assumes one expert agriculturist to each section of from 3,000 to 12,000 acres to keep in close touch with the crop of each section from the time of the sowing of the seed bed on to the time of harvest.

W. B. Mansfield, the local banker who first glimpsed the possibility of the valley under the Elephant Butte project as a sugar-growing country, and who has done more than any other man to initiate and prosecute the experiment which resulted in the assurance of the farmers that there will be a market for the sugar of the Holly Sugar company for a full year.

Mr. Mansfield will act as the representative of this community and of all those who have signed contracts to grow sugar next year.

The fact that the company decided to proceed will go with on the factors despite the failure thus far of the people of this section to sign the full quota of 7,000 acres asked for is taken as an indication of their confidence in the soundness of the program.

Something over 5,000 acres have been signed thus far by actual farmers. The sugar having been merely guaranteed by sugar business men, it was promised to release the company for additional acreage, and it is hoped that the announcement of this decision to start the project will encourage the signing of new contracts. It is especially hoped that the members of the 30 Pace Valley will join more extensively to the movement.

Reunions have just been received here on several samples of sugar beets each sent in the laboratories of the company on October 16. Four samples showed the following results:

	Sample	Content, per cent	Purity, per cent
No. 1	17.00	75.92	
No. 2	21.50	80.92	
No. 3	20.00	80.56	
No. 4	17.40	75.87	
Average	19.00	78.51

Those having surplus funds lying idle are invited to avail themselves of our Time Certificates of Deposits which yield FOUR PER CENT INTEREST.

Deming Man Under Arrest on Charge Of White Slavery

Deming, N. M., Oct. 25.—Deming Police Officer Charles Aguirre has been arrested from Deming where he came from about a week ago, on the charge of white slavery. The complaint being filed against him by Mrs. Margaret H. Henshaw, who gave her name as the wife and the residence at El Paso, New Mexico, that Aguirre had obtained \$1,000 by promising to marry her in return for the sum of \$1,000.

He was released on bail after an order was issued to arrest him on his

return, in order to meet her. She alleges that they lived together while in Deming. Deputy Sheriff J. DeGrazia also judged Vernon Williams, colored, in jail at Deming. He is charged to have killed his sweetheart and a man whom he regarded as a rival a few days ago in Fort Bayard.

Mr. DeGrazia also stated today when he arrested Frank Martinez, charged with selling liquor in Arizona, a dry state.

Sawbones Work on Lockjaw Patient; Operation Failure

By Evening Herald Special Wire
Philadelphia, Oct. 25.—A patient whose jaws had been tight for two years, who had never learned to talk, and who had been obliged to obtain all his nourishment through a tube, was the subject of one of the numerous operations performed at the various clinics here yesterday, as part of the activities of the Clinical Congress of Surgeons of North America.

The joints of the patient's jaws had hardened following an attack of scarlet fever when he was only one year old. Yesterday Dr. Wm. Babcock laid open the stiffened joint, scraped away a hard, bony substance, which was found covering them, and inserted a cushion of fat taken from another part of the man's body. Similar operations on other joints have been performed successfully but according to eminent surgeons in attendance, it was the first case in which the jawbone was involved.

Many other unusual feats of surgery, including cases of white, the bloodless method made famous by Dr. Lorenz of Vienna, who operated here thirteen years ago, were performed at the numerous clinics.

James Gaffey, the patient who underwent the operation for lockjaw, died in the day after the night the operation, which had been attempted as a last resort, proved to be too much of a strain on his lowered vitality. The visiting surgeons, who witnessed what they deemed to be a successful operation, were deeply disappointed at the fatal termination.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you!
It's horrible!

You're bitten, smothered, constipated and believe you need this dangerous calomel to start your liver and clean your bowels.

Heres my guarantee: Ask your druggist for a 5¢ cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without spilling or making you sick I will refund your money to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't use a day's worth. Take a spoonful of Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, we give it to your so let them eat nothing afterwards children any time. It can't salivate.

Dodson's Liver Tonic tonight and you will feel weak and sick and nauseated. Don't use a day's worth.

Take a spoonful of Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, we give it to your so let them eat nothing afterwards children any time. It can't salivate.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't use a day's worth.

Take a spoonful of Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, we give it to your so let them eat nothing afterwards children any time. It can't salivate.
